INDEX OF SUBJECTS FOR VOLUMES 17 and 18

	VOL	PAGE
Acinetobacter, fingerprinting by SDS-PAGE of cellular protein	18	55
Adhesion and attachment (*also see* Fimbriae *and* Pili)		
of *H. influenzae* to buccal and pharyngeal epithelium	18	107
of leptospires to mouse fibroblasts	18	73
of *T. pallidum* to rabbit cells	17	121
Aeromonas, isolation from faeces	18	405
Anaerobes		
in abscesses of cattle	18	365
in Crohn's disease and diarrhoea in India	17	207
Inhibition of polymorph chemotaxis	18	167
in non-gonococcal urethritis	17	129
Polymorph killing in aerobic and anaerobic conditions	18	173
Antibiotics and other antibacterial substances		
Beta-lactam resistance in *P. aeruginosa*	17	283
Effect on rectal flora in Crohn's disease	18	335
Epidemiology of antibiotic-associated *C. difficile* diarrhoea	17	317
Morphological response of *P. aeruginosa*	17	159
Multiresistant *S. aureus* in Australia	17	79
Penicillin binding and cell permeability in *P. aeruginosa*	18	261
Properties of plasmids in trimethoprim-resistant *E. coli*	18	95
Sensitivities and plasmid profiles of methicillin-resistant *S. aureus*	17	295
Sensitivity tests of azlocillin and ticarcillin on *P. aeruginosa*	17	37
Bacteraemia, rapid detection by early subculture of blood	17	311
Bacteroides		
Abscesses of cattle	18	365
Bactericidal action of human serum	18	355
Degradation of plasma proteins by black-pigmented species	18	39
Effect of polysaccharides on polymorph and serum killing of *B. fragilis*	17	259
Growth and survival of capsulate and non-capsulate *B. fragilis*	17	237
Phagocytic and serum killing of capsulate and non-capsulate *B. fragilis*	17	247
Blood culture, early subculture for rapid detection of bacteraemia	17	311
BOOK REVIEWS		
Chemotherapeutic strategy (Edited by D I Edwards and D R Hiscock)	17	111
Prevent infection! Guidelines for clinicians, nurses and paramedical staff in general and psychiatric hospitals and nursing homes on how to prevent or combat infection (translated and adapted by W C Noble)	17	215
How to write and publish a scientific paper (R A Day)	17	215
A colour atlas of *Bacillus* species (J M Perry, P C B Turnbull and J R Gibson)	17	363
Antibiotic choice: the importance of colonisation resistance (D van der Waaij)	17	363
Notes on antimicrobial therapy (J Symonds)	17	364
Microbial skin disease: its epidemiology (W C Noble)	17	364
Essential clinical microbiology: an introductory text (E M Cooke and G L Gibson)	18	135 *and* 137
History of staining (G Clark and R H Kasten)	18	136
Immunization against bacterial diseases (edited by C S F Easmon and J Jeljaszewicz)	18	289
Antibiotics and infection (Edited by S C Edberg and S A Berger)	18	290
Mechanisms of viral pathogenesis. From gene to pathogen (edited by A Kohn and P Fuchs)	18	437
Bordetella pertussis		
Association between agglutinogen 2 and fimbriae	18	87
Heat-labile toxin	17	91
Campylobacter		
Classification by restriction endonuclease analysis	18	117
Colonisation of mice by *C. jejuni*	17	59
Factors affecting lethality of *C. fetus* ss *jejuni* in mice	18	27
Gastroenteritis in chicks	18	233

	VOL	PAGE
Candida		
Host resistance in uraemia	17	181
in haematological malignancies	18	249
Proteolytic potential in saliva	17	13
Capsules		
Effect of polysaccharide on polymorph and serum killing of *B. fragilis*	17	259
Influence on growth and survival of *B. fragilis*	17	237
Influence on phagocytic and serum killing of *B. fragilis*	17	247
Cattle, anaerobic abscesses	18	365
Cell culture		
Detection of mycoplasmas	17	23
Influence of drugs on response to bacterial toxins	17	151
Cerulenin, inhibiton of *S. aureus* alpha toxin	18	205
Chemotaxis		
of polymorphs to mixed aerobes and anaerobes	18	167
of polymorphs to *N. gonorrhoeae*	17	45
Chlamydia trachomatis, suppression by mycoplasma infection	17	357
Clostridium		
C. difficile toxins A and B	18	385
Immunological fingerprinting in epidemiology of *C. difficile* colitis and diarrhoea	17	317
Influence of drugs on activity of toxins	17	151
Shared antigens detected by ELISA	17	171
Vaginal carriage and neonatal acquisition of *C. difficile*	18	47
Colitis, *see* Diarrhoea		
Crohn's disease		
Antibodies to *Eubacterium* and *Peptostreptococcus*	17	207
Effect of antibiotics on rectal flora	18	335
Culture media		
for isolation of *Aeromonas* from faeces	18	405
Selective, for counting bacteria in sputum	17	113
Cystic fibrosis, quantitative bacteriology of sputum	17	113
Cystitis, bacterial clearance	18	319
Diarrhoea		
Anaerobes in Indian patients	17	207
E. coli in Calcutta	17	53
Epidemiology of antibiotic-associated *C. difficile* colitis	17	317
Gastroenteritis due to *Campylobacter* in chicks	18	233
DNA fragment patterns of campylobacters	18	117
Electronmicroscopy		
for mycoplasmas	17	23
of *P. aeruginosa*	17	159
ELISA		
antigens for diagnosis of tuberculosis	18	309
for clostridial antigens	17	171
for rubella IgM	17	177
Enteritis and gastroenteritis, *see* Diarrhoea		
Escherichia coli		
Acute diarrhoea in Calcutta	17	53
Detection of enterotoxin in tissue culture	18	399
Distribution and transferability of plasmids in trimethoprim-resistant urinary strains	18	95
Effect of zinc on production of enterotoxin	18	393
Influence of drugs on activity of toxins	17	151
K antigens and phagocytosis	17	141
Eubacterium antibodies in Crohn's disease	17	207
Fimbriae (*also see* Adhesion *and* Pili)		
Association with agglutinogen 2 of *B. pertussis*	18	87

	VOL	PAGE
FPLC for detection of rubella IgM	17	177
Fusobacterium, abscesses of cattle	18	365
Gastroenteritis, *see* Diarrhoea		
Gonorrhoea		
Absence of group-I LPS antibodies	17	353
Comparison of microscopy, culture and enzyme assay for diagnosis	18	271
Molecular studies on pathogenesis (C L Oakley Lecture)	18	293
Haemoglobin in tissues, effect on bacteria	18	377
Haemophilus ducreyi, enzymic activity	18	181
Haemophilus influenzae		
Adherence to buccal and pharyngeal epithelium	18	107
Chemotyping scheme	17	335
Pathogenicity (Review)	18	1
Infection, enhancement by haemoglobin in tissues	18	377
Iron		
Effect on bacteria in tissues	18	377
Relationship to virulence of *P. aeruginosa*	18	125
K antigens of *E. coli*, role in phagocytosis	17	141
Klebsiella		
K. aerogenes polyvalent vaccines	18	413
Virulence in skin lesions of mice	17	67
Leptospira, enhancement of adhesion by antibody	18	73
Leukocytes, *see* Polymorphs		
Liposome augmentation of tuberculin reaction	18	429
Luminous bacteria in study of phagocytosis	18	65
Macrophage cytotoxin, antimicrobial effects	17	211
MAP antibodies in rheumatic fever	17	189
Mycobacterium chelonei in toads	18	327
Mycobacterium tuberculosis		
Antigens for ELISA diagnosis	18	309
Target antigen of cell-mediated immunity in strain H37Rv	18	17
Mycoplasma		
Antichlamydial effect of *M. pulmonis* infection	17	357
Detection in cell cultures by light and electronmicroscopy	17	23
Mycoses in haematological malignancies	18	249
Neisseria gonorrhoeae		
Absence of group-I bactericidal antibodies during infection	17	353
Chemotaxis of polymorphs	17	45
Detection by microscopy, culture and enzyme assay	18	271
Molecular studies on pathogenesis (Review)	18	293
Neisseria species, antigen associated with pathogenicity	18	347
OBITUARY NOTICE		
Robert Reid Gillies	18	285
Otitis media and types of *Proteus*	17	201
Paracoccidioides brasiliensis, susceptibility to oxidative metabolites	18	423
PATHOLOGICAL SOCIETY OF GREAT BRITAIN AND IRELAND		
Proceedings of 148th meeting	17	i (after 365)
Proceedings of 149th meeting	18	i (after 449)
Peptococcus magnus, receptors for serum albumin	18	189

	VOL	PAGE
Peptostreptococcus		
Abscesses of cattle	18	365
Antibodies in Crohn's disease	17	207
Phage β interaction with *V. cholerae*	18	255
Phagocytosis, *see* Polymorphs		
Pili (*also see* Adhesion *and* Fimbriae)		
Relationship to adherence of *H. influenzae*	18	107
Plasmids		
Cryptic in *Providencia stuarti*	18	277
Distribution and transferability in trimethoprim-resistant *E. coli*	18	95
of phage-group-II *S. aureus*	17	325
Plasmid profiles of methicillin-resistant *S. aureus*	17	295
Polymorphs and phagocytosis		
Chemotaxis towards aerobes and anaerobes	18	167
Chemotaxis towards *N. gonorrhoeae*	17	45
Effect of capsular and lipopolysaccharide on phagocytosis and serum killing of *B. fragilis*	17	259
Killing capacity in aerobic and anaerobic conditions	18	173
Phagocytosis and serum killing of capsulate and non-capsulate *B. fragilis*	17	247
Role of K antigens in phagocytosis of *E. coli*	17	141
Study of mechanism with luminous bacteria	18	65
Polysaccharides, effect on polymorph and serum killing of *B. fragilis*	17	259
Propionibacterium in abscesses of cattle	18	365
Proteus bacteriocin and Dienes types in otitis media	17	201
Providencia stuarti, cryptic plasmids	18	277
Pseudomonas aeruginosa		
Mechanism of beta-lactam resistance	17	283
Morphological response to antibiotics	17	159
Penicillin binding and cell permeability in carbenicillin-resistant strains	18	261
Relationship of iron to virulence for lung	18	125
Sensitivity tests to azlocillin and ticarcillin	17	37
Quantitative bacteriology		
of sputum	17	113
of vagina in genital disease	18	217
Rectal flora during antibiotic therapy in Crohn's disease	18	335
Respiratory tract, influence of R protein on colonisation by group-B streptococci	17	347
Restriction endonuclease analysis of campylobacters	18	117
Rheumatic fever and MAP antibodies	17	189
Rhodochrous causing synovitis	18	433
R protein of group-B streptococci, influence on respiratory colonisation	17	347
Rubella		
Characterisation of virion polypeptides	17	105
Detection of specific IgM by FPLC and ELISA	17	177
Saliva, proteolysis by *C. albicans*	17	13
SDS-PAGE for fingerprinting *Acinetobacter*	18	55
Single radial haemolysis in diagnosis of syphilis	17	273
Skin microbiology		
Coming of age (Review)	17	1
Virulence of *Klebsiella*	17	67
Sputum, quantitative bacteriology in cystic fibrosis	17	113
Staphylococcus aureus		
Binding of alpha toxin to erythrocytes	18	197
Inhibition of alpha toxin by cerulenin	18	205
Molecular epidemiology in hospital	17	79
Plasmids of phage-group-II strains	17	325
Sensitivities and plasmid profiles of methicillin-resistant strains	17	295
Stomatitis, fungal, in haematological malignancies	18	249

	VOL	PAGE
Streptococci group B		
Influence of R protein on respiratory colonisation	17	347
Profile of group-B strains (Review)	18	139
Streptococcus pyogenes MAP antibodies in rheumatic fever	17	189
Synovitis caused by *Rhodochrous*	18	433
Syphilis, diagnosis by single radial haemolysis	17	273
Toads, *Mycobacterium chelonei* infection	18	327
Torulopsis infection in haematological malignancies	18	249
Toxins		
B. pertussis heat-labile toxin	17	91
C. difficile A and B toxins	18	385
E. coli, *C. difficile*, *C. perfringens*, detection in cell culture	17	151
E. coli enterotoxin		
detection in cell culture	18	399
effect of zinc	18	393
Macrophage cytotoxin, antimicrobial effects	17	211
Nature and activities of enterotoxins (Review)	17	217
S. aureus alpha toxin		
Binding to erythrocytes	18	197
Inhibition by cerulenin	18	205
Treponema pallidum		
Attachment to rabbit cells	17	121
Reiter extracts in single-radial-haemolysis diagnosis of syphilis	17	273
Tuberculosis		
Antigens for ELISA diagnosis	18	309
Effect of liposomes on tuberculin reaction	18	429
Tumour necrosis serum, antimicrobial effects	17	211
Uraemia, host resistance to *C. albicans*	17	181
Urethritis		
Gram-negative anaerobes in non-gonococcal urethritis	17	129
Urinary-tract infection		
Bacterial clearance in cystitis	18	319
in children	17	31
Vaginal flora in genital disease	18	217
Vibrio cholerae interaction with phage β	18	255
Virulence		
of *Campylobacter* in mice	18	27
of *Klebsiella* in skin lesions in mice	17	67
of *P. aeruginosa*, relationship to iron	18	125
Yersinia pseudotuberculosis, role of plasmids in growth and virulence	18	371
Zinc, effect on production of *E. coli* enterotoxins	18	393

INDEX OF AUTHORS FOR VOLUMES 17 and 18

	VOL	PAGE
ADLER B, *see* VINH *et al.*	18	73
ALEXANDER M, ISMAIL F, JACKMAN P J H, NOBLE W C. Fingerprinting *Acinetobacter* strains from clinical sources by numerical analysis of electrophoretic protein patterns	18	55
AL-QUDAH A A, MOSTRATOS A. Reactions of extracts of Reiter treponeme with syphilitic and non-syphilitic human sera in the single-radial-haemolysis technique	17	273
ARONSON M, *see* GILLON *et al.*	18	319
ARONSSON B, *see* POXTON *et al.*	17	317
BAL M, *see* NAMAVAR *et al.*	18	167
BALDWIN R W, *see* PIMM AND BALDWIN	18	429

CONTENTS

Volume 17. No. 1—February

PAGE

NOBLE W. C. Skin microbiology: coming of age (Review) 1

SAMARANAYAKE, L. P., HUGHES, ANNE and MACFARLANE, T. W. The proteolytic potential of *Candida albicans* in human saliva supplemented with glucose 13

CHASEY, D. and WOODS, S. B. Detection of immunoperoxidase labelled mycoplasmas in cell culture by light microscopy and electronmicroscopy 23

NAYLOR, G. R. E. A 16-month analysis of urinary tract infection in children . 31

BRUMFITT, W., HAMILTON-MILLER, J. M. T. and GOODING, A. Importance of methodology in determining bactericidal and bacteriostatic activities of azlocillin and ticarcillin against *Pseudomonas aeruginosa* 37

RANK, E. L. and HOLMES, BEULAH. Chemotaxis of human polymorphonuclear leukocytes toward *Neisseria gonorrhoeae* 45

SEN, D., GANGULY, U., SAHA, M. R., BHATTACHARYA, S. K., DATTA, P., DATTA, D., MUKHERJEE, A. K., CHAKRAVARTY R. and PAL, S. C. Studies on *Escherichia coli* as a cause of acute diarrhoea in Calcutta 53

FIELD, LEANNE H., UNDERWOOD JUDY L. and BERRY L. J. The role of gut flora and animal passage in the colonisation of adult mice with *Campylobacter jejuni*. 59

SIMOONS-SMIT, A. M., VERWEIJ-VAN VUGHT A. M. J. J., KANIS, I. Y. R. and MACLAREN, D. M. Virulence of *Klebsiella* strains in experimentally induced skin lesions in the mouse 67

LYON, B. R., IUORIO, J. L., MAY, J. W. and SKURRAY, R. A. Molecular epidemiology of multiresistant *Staphylococcus aureus* in Australian hospitals 79

LIVEY I. and WARDLAW, A. C. Production and properties of *Bordetella pertussis* heat-labile toxin 91

HO-TERRY, LINDA, COHEN, A. and TEDDER, R. S. Immunological characterisation of rubella virion polypeptides 105

BOOKS RECEIVED 111

Volume 17. No. 2—May

WONG, K., ROBERTS, M. C., OWENS, L., FIFE, M. and SMITH, A. L. Selective media for the quantitation of bacteria in cystic fibrosis sputum . . . 113

WONG, GRACE H. W. and STEINER, B. M. Effect of sugars and metabolic intermediates on the attachment of *Treponema pallidum* to rabbit cells . 121

FONTAINE, E. A. R., BORRIELLO, S. P., TAYLOR-ROBINSON, D. and DAVIES, HEATHER A. Characteristics of a gram-negative anaerobe isolated from men with non-gonococcal urethritis 129

VERWEIJ-VAN VUGHT, A. M. J. J., NAMAVAR, F., PEERBOOMS, P. G. H., SPARRIUS, M. AND MACLAREN, D. M. The role of different K antigens of *Escherichia coli* in phagocytosis by polymorphonuclear leukocytes 141

GIUGLIANO, L. G. and DRASAR, B. S. The influence of drugs on the response of a cell culture preparation to bacterial toxins 151

ELLIOTT, T. S. J. and GREENWOOD, D. The morphological response of *Pseudomonas aeruginosa* to azthreonam, cefoperazone, ceftazidime and N-formimidoyl thienamycin 159

PAGE

POXTON, I. R. and BYRNE, MARIE D. Demonstration of shared antigens in the genus *Clostridium* by an enzyme-linked immunosorbent assay. . . . 171

HO-TERRY, LINDA, COHEN, A. and TERRY, G. M. Detection of rubella virus specific IgM by fast protein liquid chromatography and enzyme-linked immunosorbent assay 177

MILLER, T. E. and FINDON, GLENNE. Host resistance to *Candida albicans* in uraemia. 181

MARTIN, DIANA R. and DICK, KRISTINA J. M-associated protein antibodies in patients with rheumatic fever 189

SENIOR, B. W. and SWEENEY, G. The association of particular types of *Proteus* with chronic suppurative otitis media 201

HOWELLS, B., MATTHEWS, N., MAYBERRY, J. F. and RHODES, J. Agglutinins to anaerobic bacteria in Crohn's disease and in Indian patients with diarrhoea 207

SHORT ARTICLE

NEALE, M. LYNNE and MATTHEWS, N. Antimicrobial effects of a macrophage-derived cytotoxin from the serum of BCG-primed rabbits (tumour necrosis serum) 211

BOOKS RECEIVED 215

Volume 17. No. 3—June

GEMMELL, C. G. Comparative study of the nature and biological activities of bacterial enterotoxins (Review) 217

PATRICK, SHEILA, REID, J. H. and LARKIN M. J. The growth and survival of capsulate and non-capsulate *Bacteroides fragilis in vivo* and *in vitro* . . 237

REID, J. H. and PATRICK, SHEILA. Phagocytic and serum killing of capsulate and non-capsulate *Bacteroides fragilis* 247

CONNOLLY, JANET C., MCLEAN, C. and TABAQCHALI, SOAD. The effect of capsular polysaccharide and lipopolysaccharide of *Bacteroides fragilis* on polymorph function and serum killing 259

AL-QUDAH, A. A. and MOSTRATOS, ANN. Reactions of extracts of Reiter treponeme with syphilitic and non-syphilitic human sera in the single radial haemolysis technique 273

WILLIAMS, ROSAMUND J., LIVERMORE, D. M., LINDRIDGE, M. A., SAID, A. A. and WILLIAMS, J. D. Mechanisms of beta-lactam resistance in British isolates of *Pseudomonas aeruginosa* 283

GILLESPIE, M. T., MAY, J. W. and SKURRAY, R. A. Antibiotic susceptibilities and plasmid profiles of nosocomial methicillin-resistant *Staphylococcus aureus*: A retrospective study. 295

GANGULI, LEELA A., O'HARE, WENDY and HYDE, W. A. Rapid detection of bacteraemia by early subculture. 311

POXTON, I. R., ARONSSON, B., MÖLLBY, R., NORD, C. E. and COLLEE, J. G. Immunochemical fingerprinting of *Clostridium difficile* strains isolated from an outbreak of antibiotic-associated colitis and diarrhoea . . . 317

DYKE K. G. H. and NOBLE, W. C. Plasmids of phage-group-II *Staphylococcus aureus* 325

TEBBUTT, G. M. A chemotyping scheme for clinical isolates of *Haemophilus influenzae* 335

PAGE

KURL, D. N., CHRISTENSEN, K. K. and CHRISTENSEN, P. Colonisation of the upper respiratory tract of mice with group B streptococci type III with reference to the R-protein. 347

SHORT ARTICLES

BLACKWELL, C., CAROLINE, WINSTANLEY, F. P., WEIR, D. M. and KINANE, D. F. Absence of bactericidal antibodies against group-I lipopolysaccharide determinants of *Neisseria gonorrhoeae* during human infection . . . 353

TUFFREY, MAUREEN A., FURR, PATRICIA M., FALDER, P. and TAYLOR-ROBINSON, D. The anti-chlamydial effect of experimental *Mycoplasma pulmonis* infection in the murine genital tract 357
